

Contents

Foreword

Preface

Chapter 1 Main Issues of Supply Chain Management

Sebastian Kot

- 1.1. Conception of Supply Chain Management
- 1.2. Strategy and Activity of Enterprises in Supply Chain Management
- 1.3. Theoretical Development of Supply Chain Management

Chapter 2 Network Solutions and Bullwhip Effect in Supply Chains

Marta Starostka-Patyk

- 2.1. Basic Information On Network Solutions
- 2.2. Bullwhip Effect
- 2.3. Possibilities of Bullwip Effect Reduction
- 2.4. Partners Integration as the Key in Networks Relations
- 2.5. Systems Supporting the Networks Creation and Developmen
- 2.6. Networks Creation and Development

Chapter 3 Collaborative Business Process Management

Virgil Popa

- 3. 1. Collaborative Business Management
 - 3.1.1. Collaborative Excellence - Improved Productivity and Growth
 - 3.1.2. Collaborative Management Based on Data from POS (Point of Sale)
 - 3.1.3. JAG (Jointly Agreed Growth) model of collaborative growth
- 3. 2. Supply Chain Excellence through Practicing Collaborative Business Process Standards
 - 3.2.1. Collaborative Management
 - 3.2.2. SCM 4 ECR. Supply Chain Management for Efficient Consumer Response
 - 3.2.3. Through Business process Improvement to Business Process Management
 - 3.2.4. The Redesign Process Project
- 3.3. The Management of SCM Processes Using the SCOR Model
 - 3.3.1. Description
 - 3.3.2. SCOR Model Structure
 - 3.3.3. Performance Attributes and Level Indicators
- 3.4. The Redesign of Logistic Chain Processes
 - 3.4.1. Proactive Action with Selected Clients
 - 3.4.2. The Advanced Partnership can be Made Using Some Techniques:
 - 3.4.3. Experiencing a Complete Supply Chain
 - 3.4.4. The APQC Process Classification Framework

- 3.5. Continuous Replenishment (CRP) and logistic chain management
 - 3.5.1. Changing Relationship between Trading Partners
 - 3.5.2. ECR Processes
 - 3.5.3. Continuous Replenishment

Chapter 4 Information Systems Supporting Cooperation in Supply Chains

Sebastian Kot, Marta Starostka-Patyk and Beata Ślusarczyk

- 4.1. Relations and Cooperation in Supply Chains
- 4.2. Informatics Technologies in Supply Chains
- 4.3. Strategic Support for IT Systems in Supply Chains

Chapter 5 The Sustainable Development Conception in Supply Chain Management

Paula Badjor

- 5.1. The Essence of Sustainable Development Conception
- 5.2. Sustainable Development Elements in Supply Chain Management
- 5.3. Transport and Supply as the Integral Parts of Supply Chain Management
- 5.4. Identification of Sustainable Development Elements in the Processes of Transport and Supply

Chapter 6 Strategic Alignment in Supply Chain

Virgil Popa

- 6.1. Strategic Alignment of Service Providers (3PL – Third Part Logistics)
 - 6.1.1. Transport and Logistics in Europe
 - 6.1.2. ECR Europe Projects
 - 6.1.3. Sustainable Transport Challenges to Overcome
 - 6.1.4. Transport Optimization Guidelines
 - 6.1.5. The ECR Model for Sustainable Transport Road Map
 - 6.1.6. ECR Europe Project on “Sustainable Transport – Working Together to Deliver to Consumers Whilst Minimizing Environmental Impact”
- 6.2. Techniques and Tools in Logistics Services
 - 6.2.1. Techniques and Enablers
 - 6.2.2. Efficient Unit Loads
 - 6.2.3. Unit Load Identification and Tracking (ULIT)
- 6.3. Collaborative Project for New Product Development. Case Study
 - 6.3.1. Introduction
 - 6.3.2. New Concept Development Model
 - 6.3.3. Developed, collect and screen ideas
 - 6.3.4. New Product Introduction (NPI) in food industry
 - 6.3.5. Managing The NPI Forecasting & Planning Process: Current Practices
 - 6.3.6. Internal and external NPI collaboration
 - 6.3.7. Involvement of supply chain management
 - 6.3.8. Money being lost on new product introductions
 - 6.3.9. The long-term value argument

- 6.3.10. Global Commerce Initiative
- 6.3.11. NPI Process Management Project – The Engineer-to-Order Process (SCOR Model)

Chapter 7 Global Standards and Managerial Instruments in SCM in Consumer Goods and Retail Industry

Virgil Popa

- 7.1. Radio Frequency Identification (RFID) and Electronic Product Code (EPC) in Supply Chain Management
 - 7.1.1. Introduction
 - 7.1.2. The Technology of RFID
 - 7.1.3. The RFID Technology
 - 7.1.4. Examples Of RFID Applications
 - 7.1.5. The Supply Chains of Today
 - 7.1.6. Electronic Product Code (EPC)
 - 7.1.7. The Benefits of EPC for the Modern Supply Chain
 - 7.1.8. The Potential Benefits of EPC for the Modern Supply Chain
 - 7.1.9. Considerations for EPC Adoption
 - 7.1.10. RFID-based EPC will Fail in Supply Chains Built on Inaccurate Data
 - 7.1.11. A free Flow of Goods
 - 7.1.12. The EPC Network
- 7.2. Information Alignment in SCM Through Standards Global Data Synchronization (GDS)and EPC Global
 - 7.2.1. Introduction
 - 7.2.2. Overview of Global Data Synchronization (GDS)
 - 7.2.3. Master Data Synchronization
 - 7.2.4. Global Upstream Supply Initiative (GUSI)
 - 7.2.5. Business Rationale
 - 7.2.6. Integrated Suppliers
 - 7.2.7. Case for Using Existing GS1 Item and Location Coding Standards
 - 7.2.8. The Upstream Integration Model (UIM)
 - 7.2.9. An Integrated View of the Global Data Synchronization Network with Electronic Product Code Network
 - 7.2.10. Creating the Business Case for Global Data Synchronization in the Company
 - 7.2.11. Global Trade Item Number (GTIN) Definition
 - 7.2.12. An Introduction to the Serial Shipping Container Code
 - 7.2.13. CPG Company Best Practices (Nestlé)
- 7.3. Collaborative Planning, Forecasting and Replenishment (CPFR)
 - 7.3.1. Defining CPFR
 - 7.3.2. Key Requirements for Collaboration
 - 7.3.3. Analysis of Existing Processes
 - 7.3.4. Main Gaps that Persist through Current Practice of Forecasting and Planning
 - 7.3.5. Opportunities That Arise Through CPFR
 - 7.3.6. Other benefits of CPFR
 - 7.3.7. The CPFR Process

Chapter 8 General aspects of reverse logistics

Marta Starostka-Patyk

- 8.1. Theoretical Framework for Reverse Logistics Concept
- 8.2. Reverse Logistics Main Processes
- 8.3. Closed and Open Loops in Reverse Logistics
- 8.4. Place of Reverse Logistics in Sustainable Development
- 8.5. Reverse Logistics in Companies Practice for Environmental Management and Protection
- 8.6. Barriers to Reverse Logistics Implementation in Companies Practice

Chapter 9 Performance Management of Collaboration in Supply Chain

Virgil Popa

- 9.1. Supply Chain Performance and Strategic Collaborative Management through Balanced Scorecard. Case Study
 - 9.1.1. Introduction
 - 9.1.2. ECR Europe Studies Regarding Alliance Performances
 - 9.1.3. The Collaborative Management of ECR Alliance
- 9.2. Performance Dashboard - a Piloting Tool of a SC Processes. Case Study
 - 9.2.1. Managing and Measuring the Performance of Supply Chain Processes
 - 9.2.2. The Five Major Processes of a High Performance Supply Chain
 - 9.2.3. Performance Dashboard - a Piloting Tool of a SC Processes. Case Study
 - 9.2.4. The Logistic Chain of SC. ILDTA SA
 - 9.2.5. Piloting the Supply Chain of S.C. ILDTA SA using the Balanced Scorecard
- 9.3. Measuring the Alliance Performance Between Two Organizations to Promote a Fast Moving Consumer Goods (FMCG). Case Study
 - 9.3.1. Manufacturer/Distributor-Retailer Alliance Performance Measurement
 - 9.3.2. Development of the Process for Measuring Sales Promotion Performance
 - 9.3.3. Defining Key Performance Indicators (KPI) of the Impact of Promotion
 - 9.3.4. The Common Workflow for Entry-Level Scorecard and KPI
 - 9.3.5. Promotion Optimization
 - 9.3.6. Case Study
- 9.4. Performance Management of Supply Chain Using Balanced Scorecard in Nonprofit Organizations
 - 9.4.1. Supply Chain in NGOs
 - 9.4.2. Supply Chain Measures for a Nonprofit Organization
 - 9.4.3. The Balanced Scorecard (BSC)
 - 9.4.4. Example. A nonprofit Organization that Adopted Balanced Scorecard
 - 9.4.5. Implementing a Performance Management System

Chapter 10 **New Direction in SCM in The New Economy**

Virgil Popa and Madalina Barna

- 10.1. Collaborative Business for Value Chain Management
 - 10.1.1. A New Model for Enhanced Collaboration
 - 10.1.2. The Consumer Centric
 - 10.1.3. Best practices for New Generation SCM Model
- 10.2. Corporate Social Responsibility (CSR) in Collaborative Supply Chain of Consumer Goods Industry and Retail
 - 10.2.1. Introduction
 - 10.2.2. Social Responsibility in Supply Chain Management
 - 10.2.3. CSR in Supply Chain
 - 10.2.4. Global Projects in SCM
 - 10.2.5. CSR in the Supermarkets
- 10.3. The Financial Supply Chain Management (FSCM): a Response to the New Economy
 - 10.3.1. Financial Supply Chain Management (FSCM)
 - 10.3.2. Supply Chain Finance
 - 10.3.3. Working Capital Management
 - 10.3.4. A New Financial Solution: Factoring and Reverse Factoring vs. Commercial Credit
 - 10.3.5. Good Practices in Romania and Community Acquis
